

TEAL DOOR HOSTING GRAPHIC WRAP

We were recently contacted by a local rental management company. Their vision was to have a company truck with muted, tropical...but not "beachy" graphics.

The success of transferring the approved design onto the wrap vinyl is attributed to our state-of-the-art printers. They are a significant part of our team that transform visions into stunning vivid pieces of vinyl art.

Upon delivery, the truck was scrutinized for any dents, dings, or defects that would cause an imperfect wrap. To avoid the chance of future peeling, all vehicles are thoroughly cleaned prior to the installation.

MIRRORS, BADGES AND HANDLES ARE REMOVED AS WE GET THE FIRST VEHICLE READY FOR ITS "GRAPHIC" TRANSFORMATION!

With all the tools needed for a flawless wrap, the tailgate got attended to first.

IF YOU THINK MY REAR LOOKS GOOD, WAIT TIL YOU SEE MY ENTIRE BODY!

Wrapped and ready for pick-up, Teal Door Hosting was so thrilled with the advertising wrap on their truck, they've scheduled their second vehicle for the same wrap design.

From the first phone call to the last piece of wrap applied, we are focused on two goals: perfection in our work and pleasing our customers beyond their expectation.
